DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-30 rejected under 35 U.S.C. 102(b) as being anticipated by Tobita (USPN 5,646,516).

With respect to claims 1-19 and 25-30, Tobita discloses, in Fig. 1, a circuit comprising: “a first node (1)”; “a second node (2)”; “a single-stage source-follower” having “first (Q1) and “second (Q2) matched transistors”; “a first bias voltage (V3)”; and “a second (V5)”, all connected and operating similarly as recited by Applicant.

With respect to claims 20-24, clearly the above circuit to Tobita will provide the recited method.
